Message from the Chair, Council of Governors

On behalf of all the 47 Governors, it is my honor to say karibuni to the Devolution Conference 2025. This year, we focus on equity, inclusion and social justice- in development and in service delivery. Our country is grappling with unequal resource distribution, economic imbalances, and social exclusion of vulnerable populations. Therefore, the discourse in this year's conference will examine how County Governments, in collaboration with the National Government, can: expand the economy to accommodate the young people; improve accessibility and availability of healthcare, education, housing and other public goods; and eliminate poverty and existing systemic vulnerabilities. My desire is that the communique that is read on 15th August will contain practical and actionable policy, legislative, institutional and administrative measures that can be adopted to realize the promises of Article 174 of the Constitution of Kenya. May we dwell in unity, peace and liberty and may plenty be found within our borders- for the people and for prosperity!

Governor FCPA Ahmed Abdullahi, EGH
Chairperson, Council of Governors

A DEVOLUTION CONFERENCE- THE JOURNEY!

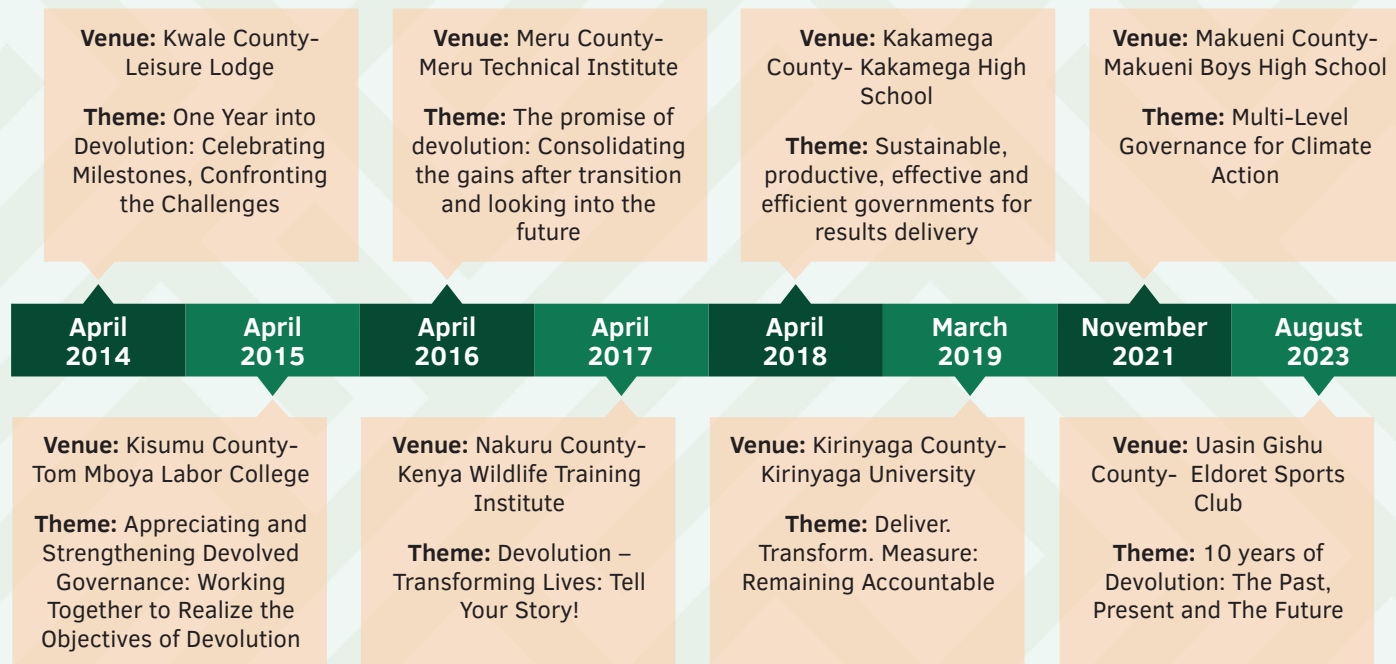

The Devolution Conference has evolved into a powerful platform for shaping policy, evaluating progress, and fostering innovation in county service delivery – while boosting local economies and enabling peer-to-peer learning across the devolved system.

The Council of Governors (CoG), in collaboration with partners, has hosted eight (8) Devolution Conferences in various parts of the country. Attracting domestic and international delegates, the conference has been known to shape devolution's policy and legislative environment through the Joint Communique that is generated at the end of each event. It has become an instrumental platform through which stakeholders can evaluate the progress made in the performance of the fourteen (14) devolved functions.

The plenums, breakaway sessions and exhibition booths facilitate deep reflections and conversations on the milestones, challenges and opportunities experienced in implementing the devolved system of the governance. The event has proved to be a powerful platform for networking and peer to peer learning on innovations and best practices emerging in service delivery at the County level. Worthy of noting also is that over the years, the Conference has become a real economic booster for communities in the host Counties. All the conference reports can be accessed at <https://maarifa.cog.go.ke/reports>

The first seven (7) conferences were held annually, with the Eldoret event ushering the biennial convening of the conference. Indeed, after two (2) years, 2025 is due to host the mega event. Previous conferences were held and themed as below:

B GUIDING CONFERENCE THEME, SUB-THEME, OVERALL OBJECTIVE AND SPECIFIC OBJECTIVES

The 2025 Devolution Conference is a timely call to action — placing equity, inclusion, and social justice at the heart of governance. It's about re-engineering county governments to bridge socio-economic divides and deliver prosperity for all.

The selection of the focus areas for the 2025 Devolution Conference is driven by the pressing need to address equity, inclusion, and social justice in Kenya, the region and the world. Recent global and national discussions have exposed persistent socio-economic disparities, challenges in accessing essential services and economic opportunities, and inadequate participation in governance. 'Reducing inequality within and among countries' is Goal 10 of Sustainable Development Goals (SDGs)- cementing the importance of state and non-state actors in sealing socio-economic and political differences amongst populations. Through high-level plenary sessions, sectoral discussions, and side events, the conference will explore actionable solutions that can enhance inclusivity and prosperity.
