Kenya National Bureau of Statistics

Vision Statement

A centre of excellence in production and management of quality statistics

Mission Statement

To develop, provide and promote quality statistical information for evidence-based decision making.

Core Values

- **Professionalism:** Strictly abides by professional considerations on the methods, standards and procedures for statistical production.
- **Confidentiality:** Guarantee confidentiality of data providers as provided in the Statistics Act 2006
- **Collaboration:** Collaborate with stakeholders so as to enhance the quality of statistical information
- **Teamwork:** To embrace teamwork as the hallmark of our success
- **Customer focus:** Commitment to meet the needs of our customers and always focus on customer satisfaction.
- **Accountability and Transparency:** Conduct business and lend services to stakeholders in a transparent and accountable manner.
- **Efficiency and effectiveness:** Promote high productivity, competence and usefulness of resources at the national and county level.
- **Innovation and Creativity:** Committed to innovation, invention, creativity and resourcefulness in service delivery.

Foreword

The implementation of the constitution created increased demand for comprehensive and disaggregated statistical information to inform evidence based policy formulation, budgeting process, monitoring and evaluation of various programmes both at the county and national levels. It is for this reason that the Kenya National Bureau of Statistics, being the principal agency of the Government for coordinating and supervising all official statistical programs undertaken within the National Statistical System, has undertaken to produce this County Statistical Abstract (CSA) annually. The information published in this Abstract will address data gaps at the county level to supplement other periodic surveys conducted by the Bureau that equally provide useful indicators for various sectors.

The 2015 County Statistical Abstract is the first of its kind to be developed for Kilifi County and will subsequently be produced annually. This Abstract will be a single source of information covering various sectors of the economy at the county level. The Abstract has substantially benefited from the administrative data generated in the county. In addition, some indicators were compiled from various survey reports and population and housing censuses.

This Abstract is expected to provide a reliable source of information for planning, policy formulation, monitoring and evaluation processes. The data contained in this Abstract will, therefore, enable data users to gauge the performance of the county.

In conclusion, there is need for collaborative efforts between the National and County Governments in order to improve on the quality of statistical information, enhance dissemination, and accessibility of statistics at the county level.

Saitoti Torome
Principal Secretary
State Department of Planning and Statistics
Ministry of Devolution and Planning

Acknowledgement

The successful production of Kilifi County Statistical Abstract has been made possible through joint efforts of producers and users of statistics despite the challenges faced during the data collection. This collaboration is expected to improve timely compilation of reliable data from county data producers that will meet the expectations of both the users and suppliers in subsequent County Statistical Abstracts.

In this regard, therefore, I wish to express my gratitude to the Kenya National Bureau of Statistics Board of Directors for providing policy direction which has culminated in the preparation of this first County Statistical Abstract.

My sincere gratitude goes to H.E. Amazon Jeffa Kingi, the Governor of Kilifi County for providing his support during the entire process in the production of this publication. I also want to thank the County Chief Officers, Directors and their staff who participated in the process of production of this abstract.

Special thanks goes to the County Commissioner for playing a pivotal role in coordinating the data collection process. I appreciate the contribution of departmental heads who provided timely data and also participated in the validation of information contained in this publication.

I acknowledge the contribution of the Kilifi County Statistical Officer and the County Working Committee for their tireless efforts in the successful compilation of data and production of this Statistical Abstract. I also thank all KNBS Directors, Editorial teams and County Statistical Abstract Secretariat at the headquarters for successfully planning, coordinating various departments, compiling and producing the 2015 County Statistical Abstract.

Finally, I wish to reiterate the Bureau's commitment in strengthening linkages with county stakeholders to improve the quality of the future Statistical Abstracts.

**Zachary Mwangi
Director General
Kenya National Bureau of Statistics**

Symbols

The following symbols have been used in this publication

“_” Means nil or negligible(less than half the final digit shown)

“..” Means figures not available

“I” between consecutive figures means they have been compiled on a different basis and are not strictly comparable. The nature of the difference is usually indicated as a footnote.

Rounding of figures:-In figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

Introduction

This County Statistical Abstract is a single source of information that provides a two year data series. It contains a comprehensive set of indicators that are useful for planning, monitoring and evaluation as well as providing useful information for research. The preparation of this Abstract has been coordinated by the Kenya National Bureau of Statistics in collaboration with the County Government, National Government Departments and other stakeholders represented in the county. The information was compiled mainly from the administrative records and partly from the recent surveys and censuses. The source of the statistical data is shown under each table.

The publication aims at providing statistical information on economic, demographic and social dimensions in Kilifi County. Being the first publication of its kind, its content may not meet detailed requirements of all users. In such a case, additional information, whenever available, will be supplied by the Bureau on request. All data request relating to statistical matters should be addressed to Director General, Kenya National Bureau of Statistics.

Structure of County Governments

The current Constitution was promulgated on 27th August 2010 providing for a two tier government structure with one National Government and forty seven (47) devolved County Governments.

County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Governments as contained in the Fourth Schedule (Constitution 2010) include: - Finance and Economic planning; Roads, Public Works and Transport; Health and Sanitation; Education and ICT; Agriculture and Irrigation; Livestock, Fisheries and Veterinary Services; Trade, Industry and Cooperative Development; Land, Housing, Physical planning and Urban Development; Water Development, Environment and Natural Resources and Tourism, Culture, Sports and Social Development.

The County Assembly

The County Assembly is vested with the legislative authority of county laws, general oversight of the County Government and representation of the people. It consists of Members of County Assembly (MCAs) elected from different Assembly Wards in the county, nominated MCAs representing special interests such as persons with disability and the youth as prescribed by an Act of Parliament, and the Speaker who is an ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Kilifi County is as follows:-

Speaker (ex-officio)	1
Elected MCAs	35
Nominated MCAs	18
Total	54

The County Executive

The Executive arm of the County Governments comprise of the Governor, the Deputy Governor, the County Executive Committee members and the County Public Service. The County Executive Committee members are appointed by the Governor with the approval of the County Assembly. The Governor and Deputy Governor are elected by registered voters in the county in a general election, for not more than two terms of five years each.

The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. Each county is run by an executive committee, consisting of:

- Governor, elected directly by the people
- Deputy Governor, elected as running mate of the successful candidate for Gubernatorial
- Committee members not exceeding a third (or ten where a county assembly has more than 30 members) of the members of the respective county assembly
- County Secretary nominated by the Governor and approved by the county assembly, who will double up as head of the county public service, and secretary to the county executive committee

For Kilifi County, the County Executive Committee comprises of:-

The Governor	1
The Deputy Governor	1
The County Secretary	1
The CEC Members	10
Total	13

Kilifi County Government

Vision

To be a Leading, Prosperous and Secure County for High Quality Life

Mission

To Provide an Enabling Environment and Participatory Resource Management for Efficient and Effective Service Delivery for All

Core Values

- The rule of law, democracy and participation of people
- Human dignity, equity, social justice, inclusiveness, equality, human rights, non- discrimination and protection of marginalized.
- Good governance, integrity, transparency and accountability.
- Sustainable development.

Overview

Kilifi County is one of the six counties in the Coastal Region of Kenya. It borders Kwale County to the South West, Taita Taveta County to the West, Tana River County to the North, the Indian Ocean to the East and Mombasa County to the South. The County covers an area of 12,609.7 Km².

The main communities residing in Kilifi County are: the Giriama, Chonyi, Jibana, Kambe, Kauma, Rabai, Ribe, Waata, Bajuni, Swahili, Arabs, Indians, Kamba and people of European descent who have permanently settled in the county.

The main crops grown for subsistence are maize, cowpeas, green grams and cassava. The major cash crops in the county include sisals, mangoes, coconut, cashew nuts in the coastal plains and pineapples mainly in Magarini Sub County,

Livestock is a major economic activity in the county providing income and food to the residents in the hinterland of Ganze and Magarini Sub-counties. The main types of livestock reared in the county include indigenous cattle, sheep, goats and poultry.

Fishing is an important economic activity that provides employment to the communities along the coastline and at the creeks with over 5,085 families depending on fishing for livelihoods. Annual fish catch averages about 443.689 tonnes. The common fish varieties found in the county are sailfish, tilapia, cat fish, parrot fish, lobster prawns, rabbit fish, marlins, swordfish, sharks, yellow fin Tuna, trevally, Wahoo and kingfish.

The on-going activities in the county include quarrying for cement production in Rabai and Vipingo, salt extraction in Gongoni and Marereni, sand harvesting in Gongoni and stone quarrying in Various quarry sites the county.

The county is endowed with a wide range of minerals such as Manganese in Ganze constituency, salt and sand harvesting in Magarini constituency, coral rocks (stones) in Kilifi South and Kilifi North constituencies, and limestone in Kilifi South constituency. Silica deposits are also found in Malindi constituency.

The county is endowed with diverse tourism attractions. These include white sandy beaches in Malindi, Watamu, Kilifi and Mtwapa, historical sites in Gede, Malindi, Takaungu, Mnarani and Rabai that date back to the slave trade period. Other tourist sites include Kaya forests, Marafa Hell's Kitchen, Bore Valley, Mekatilili Wa Menza, Kapangani Rock and Sabaki Estuary in Magarini and mangrove swamps that attract both local and international tourists. The county provides good opportunities for sport fishing and marine research especially on rare breeding grounds of rare fish species like the Tewa. The county also has the Arabuko Sokoke Forest reserve famous for butterfly species, Malindi Marine National Park, Watamu Marine National Reserve and Kuruwitu Marine area as major attractions. The Vipingo Ridge golf course and, Malindi international Airport and Kijipwa airstrip are important facilities for tourism.

Wildlife in the county is mainly found in the Arabuko Sokoke Forest Reserve, Malindi Marine Park and Watamu Marini Reserve.

Administrative and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions and locations by political units in terms of constituencies and wards.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenya's Constitution and specified in the First Schedule of the Constitution;

Sub County: Refers to both Administrative Units of National Government and County Government. In most areas it coincide with the Constituency area.

County Assembly: means an assembly constituted in the county in accordance with Article 177 of the Constitution;

Constituency: Is an area demarcated as stated under Article 89 of the Kenya's Constitution for the purpose electing a member of the National Assembly. There are 290 constituencies in Kenya

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing a the member of the County Assembly. There are 1450 wards in Kenya

Land and Climate

This section contains data on Land Area, topography and climate.

Notes and Definitions

Topography: refers to the geographic features of a location. The features includes the mountains, peaks, valleys etc.

Climate: The weather conditions prevailing in an area in general or over a long period or a region with particular prevailing weather conditions. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is for a weather station within each sub county.

Land Area: Refers to an area in square kilometres of the land-based portions of standard geographic areas.

Temperature: Refers to a measure of the warmth or coldness of a place with reference to some standard value.

Population and Vital Statistics

This section provides information on population and vital statistics by census year, sex and constituency; registration of births and deaths by place of occurrence in Kilifi County.

Notes and Definitions

Density: Refers number of persons per square kilometre, obtained by dividing the enumerated persons in a given area by the size of the area expressed in KM²

Area: Is the extent of a surface enclosed within a specified boundary, expressed in square kilometres. This excludes areas covered by water.

Birth: Birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy.

Death: Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (postnatal cessation of vital functions without capability of resuscitation). This definition excludes fetal deaths.

Expected Birth or Expected Death: Is derived from the prevailing fertility or mortality conditions and total female population of reproductive age or the total population. The number of expected births or deaths is calculated using age-specific birth and death rates.

Place of Occurrence: It is where birth or death occurs.

Table 3.1: National Population by Sex, Households and Density, and Census Years, 1969-2009

Agriculture

This section provides information on agro-ecological zones, land potential by selected sub-counties, type of crops grown, the total area cropped, amount produced and their value. It also gives information on average retail prices for farm inputs, acreage under irrigation by type of crop grown.

Notes and Definitions

High potential: Clay-loam soil with sufficient manure and good drainage

Medium potential: Sandy-loam soil with high drainage

Low potential: Sandy soil with very high drainage and low manure content

Agro-Ecological Zones (AEZ): Refers to the Division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.

Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data

Agricultural Area: refer to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested

Arable land: Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for “Arable land” are not meant to indicate the amount of land that is potentially cultivable.

Crop production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Farm gate Prices: The value of production given in this report uses farm gate prices as the basis of valuation of the production from the county. Farm gate price is the price paid to farmer at the farm level and hence excludes margins on transport.

Table 5.1: Land Potential by Sub-County and area, 2014

Sub County	Sq. Km

Livestock

This section provides data on livestock population, production, livestock diseases, and animal slaughter by Sub County. It also provides data on livestock products.

Notes and Definitions

Livestock Primary Products: include products from live and slaughtered animals. Products from slaughtered animals include meat, offal, raw fats, fresh hides and skins. Products from live animals include milk, eggs, honey, beeswax and fibres of animal origin.

Table 6.1: Livestock Population Estimates, 2013- 2014

Fisheries

The quantity and value of fish that landed in the Indian Ocean, aquaculture from fish ponds are covered in this section.

Notes and Definitions

Marine Fish: refers to fish captured from the Indian Ocean

Inland Fish: refers to fish captured from the inland water surface bodies e,g Lakes, rivers etc

Culture fish: refers to fish captured from the ponds

This section shows the number of fish ponds, production and value of fish by Sub County.

Table 7.1: Fish Ponds, production and Value of Fish by Sub County, 2013-2014

Forestry

The section has data on number and size of gazetted forests and forest production.

Notes and Definitions

Gazetted Forest: Any forest area, or woodland or any part thereof, declared by notice in the Kenya Gazette Supplements, and which has a particular environmental, cultural, scientific, or other special significance, to be a nature reserve for the purpose of preserving its biodiversity and natural thereof.

Table 9.1: Gazetted Forests, 2013-2014

Year	Number		Size(Ha)	
	Gazetted Forests	Non- Gazetted Forests	Gazetted Forests	Non- Gazetted Forests
2013	4	3	55,528.6	34,500
2014	4	3	55,528.6	34,500

Energy

Electricity connections for domestic use, small commercial, industrial use and street lighting and the average annual pump prices and monthly pump prices of various petroleum products are presented in this section

Notes and Definitions

Domestic use: These are domestic customers. They are Low voltage level (240 /415kV) users

Small commercial: These are medium commercial and industrial customers. They are medium Voltage level (11&33 kV) users

Industrial use: These are large commercial and industrial customers. They are High Voltage level (66 & 132 kV) users

Street lighting: They are Low voltage level (240 /415kV) users

Pump prices: These are the maximum retail petroleum prices calculated by the Energy Regulatory Authority in accordance with Legal Notice No.196 of 2010.

Education

Information on education enrolment by class for pre-primary (ECDE), Primary, Secondary, Technical, middle level colleges and University are given in this section. The indicators that have been computed are Gross Enrolment Rates and the Net Enrolment Rates.

Notes and Definitions

Enrolment in Adult and Continuing Learning is mainly non formal

Schools maintained by the Central Government are classified as "Public" whereas those which receive no grant from the Central Government are classified as "Private" schools.

Net enrolment rate: Enrolment of the official age group for a given level of education expressed as a percentage of the corresponding population.

Gross enrolment rate: Total enrolment in a specific level of education, regardless of age, expressed as a percentage of the eligible official school-age population corresponding to the same level of education in a given school year.

Public Health

This section provides statistics on health facilities by type and ownership, hospital beds and cots, outpatient morbidity for persons who are under five years old and those who are aged five years and above, registered medical personnel, NHIF and medical students.

Notes and Definitions

Kenya's health system is broadly categorized into six levels of care, namely, Level 1 comprising of the community and outreach level of care, Level 2 representing the dispensaries, Level 3 of health centers and clinics, Level 4 of the district hospitals, Level 5 of the County hospitals, and Level 6 of tertiary national referral hospitals

Health Facility: This is a defined a health service delivery structure from where services are provided e.g. Outpatient, pharmacy, laboratory. Government facilities are the ones which are gazetted and Non-Government facilities are registered with the regulator.

Level 1 – Community Health Unit: This is a health service delivery structure within a defined geographical area covering a population of approximately 5,000 people.

Level 2 – Dispensaries: Refers to the lowest point of contact with the public. These are run and managed by enrolled and registered nurses who are supervised by the nursing officer at the respective health centre.

Level 3 - Health Centres: They have a clinical officer as in-charge and provide comprehensive primary care and mainly focus on preventive care such as childhood vaccination. They are medium-sized units which cater for a population of about 80,000 people.

Level 4 – Sub County hospitals: Are hospitals which are the coordinating and referral centre for the smaller units. They usually have the resources to provide comprehensive medical and surgical services. They are managed by medical superintendents.

Level 5 - County hospitals: These are regional centres which provide specialized care including intensive care and life support and specialist consultations. These are referral points for the sub county hospitals

Level 6 - National referral hospitals: Refers to National referral hospitals offering very specialized services. They are Kenyatta National Hospital, Moi Teaching and Referral Hospital, Mathare Mental Hospital and Nairobi Spinal Injury.

Additional Information

County Indicators

Table 21.1: Key Demographic, Health and Socio-Economic Indicators

Indicator	County	National
Dominant Land Cover(agriculture)	50.7	98.2
Population Growth Rate	3.1	3.0
Household Size	5.6	4.4
HIV Prevalence	3.0	5.6
Poverty Indices	58.4	45.2
Percentage Population Under Age 18	53.9	50.1
Percentage Population Under Age 64	0.2	0.2
Percentage of Households of 1-3 people	33.7	42.0
Percentage of Households of over 7 people	34.0	19.2
Percentage of Female headed Households	32.5	32.1
Crude Birth Rate(CBR)	47.0	38.4
Crude Death Rate(CDR)	9.3	10.4
Gender Parity Index(Primary School attendance)	1.0	1.0
Gender Parity Index(Secondary School attendance)	0.7	0.9
Secondary Gross Enrolment Rates	68.2	..
Net Enrolment rates	58.1	..
Pre-primary Gross Enrolment Rate	69.7	..
Pre-primary Net Enrolment Rates	68.5	..
Primary Gross Enrolment Rates	111.2	..
Primary Net Enrolment Rates	94.9	..
Secondary Gross Enrolment Rates	68.2	..
Secondary Net Enrolment rates	58.1	..
Fertility and Family Planning:		
Total Fertility Rate	5.1	3.9
Current use of any Family Planning method-married women 15-49 (%)	34.1	58.0
Use of any modern Family Planning method (%)	32.8	53.0
Maternity care:		
Pregnant women received antenatal care from skilled provider(%)	98.2	96.0
Pregnant women received 4+ ANC visits(%)	64.6	58.0
Births assisted by skilled provider(%)	52.3	62.0
Births in health facility(%)	52.6	61.0
Child vaccination:		
Children 12-23 months fully immunized %	71.5	68.0
Nutrition:		
Children under 5years stunted(moderate or severe) %	39.1	26.0
Children under 5years wasted (moderate or severe) %	0.9	4.0
Children under 5years underweight %	4.1	11.0
Children under 5years overweight or obese(%)	16.9	4.0
%age of Household		
Consumed iodized salt	88.9	..
No salt	8.6	..
Not iodized	0.2	..
HIV/AIDS- related Knowledge:		
Women 15-49 who know HIV can be prevented by condoms and limiting sex to one uninfected partner (%)	93.1	77.0
Men 15-49 who know HIV can be prevented by use of condoms and limiting sex to one uninfected partner (%)	43.8	85.0
Women 15-49 who have been tested for HIV in the past 12 months and received the results of the last test (%)	53.9	53.0
Men 15-49 who know HIV can be prevented by use of condoms and limiting sex to one uninfected partner (%)	42.3	46.0
HIV Prevalence (15-64) Years	..	5.6

County Indicators

Indicator	County	National
Malaria Prevention and Treatment:		
Households with at least one insecticide-treated net (ITN)(%)	73.1	59.0
Households with at least one ITN for every 2 persons in the household(universal coverage)(%)	41.5	34.0
Children under age 5 who slept under an ITN the night before the survey(%)	63.6	54.0
Pregnant women who slept under an ITN the night before the survey(%)	58.0	51.0
Pregnant women who received 3+ doses of SP/Fansidar to prevent malaria during pregnancy,{at least one dose was received during an ANC visit (IPTp)(%)}	28.5	10.0
Children under age 5 with fever in the 2 weeks before the survey	31.3	24.0
Among children under age 5 with fever, percentage who took any ACT	1.0	23.0
Improved Sanitation Facilities		
Flush to piped sewer	4.2	..
Flush to septic tank	3.7	..
Flush to pit	1.3	..
Flush to elsewhere	1.2	..
Flush to unknown place	0.2	..
VIP	6.6	..
Pit latrine	33.3	..
Composting toilet	4.5	..
Unimproved Sanitation Facilities		
Pit latrine without slab/open pit	35.4	..
Bucket	0.1	..
Hanging toilet/hanging latrine	0.0	..
Other	0.1	..
No facilities or bush or field or ocean	9.3	..
Percentage of HHS with Access to various Sanitation Facilities		
Sewer Septic cess pool	7.3	..
VIP Latrine/Covered latrine	48.8	..
Uncovered Latrine	31.3	..
Maternal Mortality Rate(MMR)	597.0	495.0
Child Mortality Rate(CMR)	182.0	79.0
