Governor's Statement

As outlined in the Constitution of Kenya 2010 (Fourth Schedule) and the Statistics Act, 2006, statistics is a concurrent function between the National and County Governments. The National Government, through the Kenya National Bureau of Statistics (KNBS), not only collaborates but also offers technical support to counties for comprehensive and reliable statistical systems in Kenya. Importantly, County Governments have a constitutional responsibility of collecting, collating, storing, and updating statistics purposely for evidence-based policy decisions that inform development planning. It is on this premise that the County Government of Homa Bay signed a collaboration agreement with the KNBS to ensure regular production of county statistical abstract (CSA) for improved outcomes and results.

Since the assumption of office in 2022, the county has made remarkable strides through our collective efforts towards transforming Homa Bay County into an economic pillar in the region. Despite the challenges, our commitment towards food security, diversified tourism, infrastructural development, industrialization, employment creation, and environmental protection for the socio-economic wellbeing of the people of Homa Bay remains on course. Importantly, the realization of our dream of transforming this county into the “Best County to Live, Invest and Work” is only attainable through good stewardship while underscoring our core values.

To unlock the “Bay’s Endless Potential” we have no choice but to productively and innovatively make good use of our limited resource endowments within our borders and beyond. Essentially, it calls for making formed decisions that are data-driven. The annual production and publication of the CSA will be key to ensuring equity and fairness in the allocation and distribution of our resources across the county without favouring or discriminating against a region, community, or group. Besides, the CSA contributes to good governance and accountability for resources since it serves as a performance scorecard against our promises to the people of Homa Bay.

Analytically, the production of official county statistics through the CSA must be a matter of priority for informed policy and planning decisions, which in turn results in greater effectiveness and efficiency in service delivery to our people. Therefore, I urge all our departments, leaders, stakeholders, and development partners to make meaningful use of these important statistics to inform key decisions about Homa Bay. Finally, I resound my commitment toward regular production of relevant, complete, reliable, and accurate CSA.

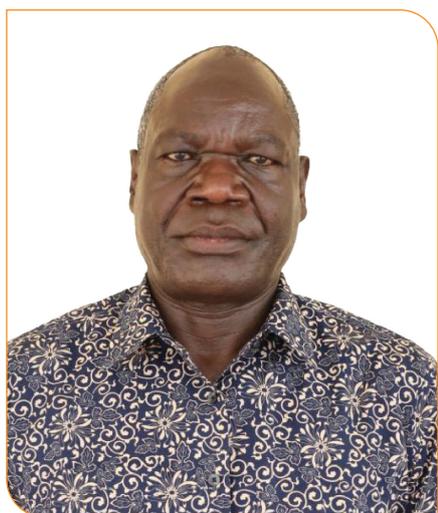

To unlock the “Bay’s Endless Potential” we have no choice but to productively and innovatively make good use of our limited resource endowments within our borders and beyond. Essentially, it calls for making formed decisions that are data-driven.

H.E. Gladys Atieno Nyasuna Wanga, E.G.H.

**The Governor
County Government of Homa Bay**

Deputy Governor's Statement

This edition of Homa Bay County Statistics Abstract (CSA 2024) is a major milestone in the development of reliable, verifiable and realistic data that will support the evidence based planning process of the County Government. It marks a great departure from the conventional planning process where plans are developed through mere estimates and ushers in a new era of scientifically proven data.

I am indeed delighted to be part of this remarkable achievement that will enforce our accountability to the citizens by constantly reminding us of our performance in the various sectors of our economy. The 2024 Statistical Abstract enables us to monitor progress, identify gaps and target interventions where they are needed most. This document will also provide a reference

point for all government departments, development agencies and researchers with accurate and up-to-date information in the various fields of interest at all times.

I wish to convey my sincere gratitude to H.E the Governor and the entire County Executive for the steadfast leadership in the development of the CSA 2024. I commend the Department of Economic Planning, County Departments, National Government Agencies, the Kenya National Bureau of Statistics and all our development partners for their dedication in producing this publication.

I call upon each of us to embrace the use of data as a foundation for inclusive growth and enhancement of service delivery. As a county, we reaffirm our commitment to transparency, accountability and people -centered development.

H.E. Hon. Joseph Oyugi Magwanga

**The Deputy Governor
County Government of Homa Bay**

The 2024 Statistical Abstract enables us to monitor progress, identify gaps and target interventions where they are needed most. This document will also provide a reference point for all government departments, development agencies and researchers with accurate and up-to-date information in the various fields of interest at all times.

Foreword

The First Principle in the United Nations Fundamental Principle of Official Statistics underscores the essential role, that official statistics play an indispensable element in the information system of a democratic society, serving the government, the economy, and the public with data about the economic, demographic, social and environmental contexts. In light of this, official statistics that meet the test of practical utility are to be compiled and availed on an impartial basis by official statistical agencies, to honor citizens' entitlement to public information. It is within the framework of this internationally recognized standard enshrined in the Statistics Act, CAP 112 Laws of Kenya [Rev 2022] that the 2024 Homa Bay County Statistical Abstract (CSA) has been produced.

In line with its statutory mandate to collaborate with and support county governments and other institutions in the production of official statistics in the country, the Kenya National Bureau of Statistics (KNBS) collaborated with the County Government of Homa Bay to produce the 2024 CSA. The 2024 Homa Bay CSA is a single source of information presenting official statistics produced by Ministries, Departments and Agencies (MDAs), both National Government and the County Government of Homa Bay. This publication provides data series on various sectors of the County's economy for the period 2019 – 2023. The data is primarily derived from administrative records and sample surveys conducted within this timeframe.

Development of the 2024 Homa Bay CSA adhered to all recommended procedures to produce official statistics. The statistics generated were validated by the MDAs within Homa Bay County both from National and the County Government, and subsequently reviewed by a technical team comprising experts from KNBS and the County Government of Homa Bay

The structure of the 2024 Homa Bay CSA consists of an introductory chapter and five additional chapters based on the classification of statistical activities undertaken by national and international statistical organizations. This classification follows the statistical subject-matter domains with five domains of: Demographic and Social Statistics; Economic Statistics; Environment; Governance Statistics; and Cross-cutting Statistics. We invite readers to engage with the contents of this publication, which provides a comprehensive set of indicators that are useful for planning and policy formulation for Homa Bay County. KNBS appreciates the collaboration that has resulted in the production of this publication and reiterate our commitment to support Homa Bay County in production of official quality statistics.

The 2024 Homa Bay CSA is a single source of information presenting official statistics produced by Ministries, Departments and Agencies (MDAs), both National Government and the County Government of Homa Bay. This publication provides data series on various sectors of the County's economy for the period 2019 – 2023.

Dr. Macdonald Obudho, EBS, MBS

**Director General
Kenya National Bureau of Statistics**

Acknowledgement

The Homa Bay County Statistical Abstract (CSA) 2024 is the first of its kind since the onset of devolution. Being an essential document, the CSA 2024 will inform fiscal planning, equity in resource allocation, and enhance financial and non-financial outcomes. Importantly, it will play a critical role in data-driven decision-making processes that maximise results and efficiency in service delivery.

Its preparation has been a collaborative effort between the KNBS and the County Government of Homa Bay. It contains a five-year administrative data set produced by county government entities and national government MDAs. The process of developing the CSA 2024 entailed three phases: The preparatory, data processing, and data dissemination phases. The document is classified into five domains: Demographic and social, macroeconomic, environmental, governance, and cross-cutting statistics. In

compliance with data quality standards, all these processes were subjected to the appropriate quality checks from data entry to validation, which were key for ownership.

The process of producing the Homa Bay CSA 2024 was very inclusive and participatory. Our sincere gratitude to the County Executive under the leadership of H.E. the Governor - Hon. Gladys Nyasuna Wanga, EGH, H.E, the Deputy Governor, Hon. Joseph Oyugi Magwanga, All the CEC Members, Chief Officers, Heads of various county entities, Directors, and technical officers for their immense contribution. We acknowledge the role of the Department of Finance and Economic Planning, particularly the Economic Planning Division, in coordinating the development of this document. Importantly, we appreciate the contribution of the County Assembly of Homa Bay led by the Speaker, Hon. Polycap Okombo and the Majority Leader, Hon. Richard Ogindo. Besides, we extend our deepest appreciation to the national government MDAs at the county level, under the leadership of the County Commissioner, Mr. Moses K. Lilan, OGW, and heads of various departments and units.

Special appreciation to the KNBS technical team under the stewardship of the Director General, Dr. Macdonald Obudho, MBS. Specifically, we are grateful to a joint technical team from KNBS and Homa Bay Economic Planning Division made up of Director Benjamin Avuseva, John Bore, Lawrence Smith (Ag. Chief Officer for Economic Planning and Budget), Jared Orwa, Ephantus Kuria, Frankline Mwamba, Everyne Akose, Serah Ndunda, Harriet Atieno, Samwel Maosa, Steve Owino, Emma, Derrick, Baron, Simon, Bolo, Janet, June, Oluoch, Evaline, Oyier, Kola, Anne, Raballah, all our departmental CSA champions, and Economists. Further, we applaud our partners like the SDG Kenya Forum, Open Institute, and Enigma Four for their technical support towards the production of this CSA 2024.

The Homa Bay CSA 2024 will not only bridge data gaps but also inform decision-making processes. Importantly, it will improve fiscal planning and equitable resource distribution while promoting good governance and accountability for the scarce public resources.

Overview of Homa Bay County

Homa Bay County is one of the 47 Counties in Kenya and a founding member of the Lake Region Economic Block (LREB). Geographically, it lies between latitudes 0°15' South and 0°52' South and between longitudes 34° East and 35° East. The county is located on Southwestern Kenya along Lake Victoria, where it borders Kisumu and Siaya counties to the North, Kisii and Nyamira counties to the East, Migori County to the South, and Lake Victoria and the Republic of Uganda to the West. With respect to urbanization, the county has five gazetted municipalities: Homa Bay (hosting the county headquarters), Mbita, Ndhiwa, Kendu Bay, and Oyugis. Homa Bay is not only a champion for Blue Economy development but also a county of endless opportunities.

In land size, the county covers an area of 4,267.1 Km² of which water surface covers an area of 1,227 Km², hence representing 3105.3 persons/Km². Uniquely, the county has 16 islands that offer a range of physiographic features characterized by great aesthetic values.

Ethnically, Homa Bay County is predominantly inhabited by the Luo community, which represents about 75 percent of the county's population. The Abasuba community accounts for approximately 22 percent while other ethnic groups account for the remaining 3 percent of the county's population. As per Kenya Population and Housing Census of 2019, the county's population stood at 1,131,950; with the minors accounting for about 52 percent of the population. With an annual population growth rate of 1.6 percent, Homa Bay county's population is projected to be 1,327,514 by 2027.

Primarily, Homa Bay is an agricultural county with over 74 percent of its population directly engaged in this sector. Livestock keeping and fish farming are other major agricultural activities within the county. The common crops under production in Homa Bay include but are not limited to cotton, sweet potatoes, cassava, sunflower, rice, maize, sorghum, millet, sugarcane, and other cereals.

Homa Bay is a socially and culturally rich county. It is the native home to the legendary Gor Mahia and Kochia-Kagan traditional dancers. Besides, Homa Bay County is endowed with many historical and tourist attraction sites among them Lake Simbi Nyaima, the Roan Antelope inhabited Ruma National Park, Oluch Kimira Wetlands, Abundu Hot Springs, and Gwasssi Springs.

Economically, Homa Bay Gross County Product per capita (nominal) for Homa Bay stands at KSh. 149,770 against the average national GDP of KSh. 293,229. The county's contribution to the Gross Value Added is about 1.3 percent. Since 2019, the county's average GCP growth stands at 4.2 percent against the national GDP growth of 4.6 percent. The county's poverty index has improved from 33.5 percent in 2019 to 28.2 percent in 2023.

Domain One: Demographic and Social Statistics

This section contains population and demographic statistics. The topics include demography, vital statistics, population structures and growth, demographic projections, families and households (marriages, divorces, household size).

1.2 Labour

This sub domain covers statistics on work including both employment and work not for pay or profit, labour force, labour market, and unemployment. The more detailed topics include, among others, economically active population, labour conditions, new working arrangements (new forms of work), health and safety at work (accidents at work, occupational injuries and diseases, work-related health problems), working time and other working conditions, strikes and lockouts, job vacancies, job creation, wages and salaries, and labour costs. It excludes Unemployment insurance and unemployment benefits and Trade union membership.

NB: The low underweight and stunting rates from the routine data does not reflect the true picture of the nutrition situation in the county. This is because not all children under the age of five years attend growth monitoring services on a monthly basis. The bulk of this population i.e. 10 months to 59 months hardly come for the services after receiving the first dose of measles vaccine. The current rate of stunting is 12.5% as per the KDHS 2022 while underweight stands at 6.1%. The population based data give a true reflection of the county situation.

2.2 Business statistics

Covers statistical activities on economy-wide activities of businesses across different sectors (as opposed to 20301-20307 that deal with specific individual sectors). Covers topics like statistics on economic activities of businesses, business demography, business investment, business services, demand for services, industrial performance, enterprises by size class, industrial production, commodities, structure of sales and services, outputs of the service industries, non-profit institutions, labour statistics collected from businesses. It excludes Sectoral statistics, Social and solidarity economy and Statistical business registers.

Domain Three: Environmental Statistics

Covers statistical activities on the state and changes of environmental conditions, the quality and availability of environmental resources, the impact of human activities and natural events on the environment and the impact of changing environmental conditions. The breakdown in this domain into six components follows the structure of the Framework for the Development of Environment Statistics (FDES) endorsed by the UN Statistical Commission in 2013 with updated terminology where necessary. More detailed breakdown of the components can be found in the FDES. It excludes System of Environmental-Economic Accounting.

Domain Four: Governance Statistics

The breakdown in this domain follows the structure of the Handbook of Governance Statistics (HGS) approved by the UN Statistical Commission in 2020. More detailed breakdown on statistical areas can be found in the HGS. (This Domain replaces and expands subdomain 1.8 'Justice and crime' of the earlier version of the classification (CSA 2009)).

4.1 Participation

Covers statistical activities on the ways in which individuals take part in political and public affairs, including by registering to vote, voting or standing as a candidate in elections; being members of legislative, executive and judicial bodies; accessing positions in the public service; being a member of a trade union; and engaging, individually or as members of political parties and other non-governmental organizations, in political activities.

4.2 Openness

Covers statistical activities to the extent to which public institutions provide access to information and are transparent in their decision- and policy-making processes. More specifically, it covers access to information, open government provisions, freedom of expression and media pluralism.

4.3 Access to and quality of justice

Covers statistical activities on the ability of people to defend and enforce their rights and obtain just resolution of justiciable problems, through impartial formal or informal institutions of justice and with appropriate legal support. Covers both criminal and civil justice, including the accessibility, effectiveness and quality of legal assistance, processes, decisions and outcomes. It excludes Statistical activities on criminal acts.

Domain Five: Cross-Cutting Statistics

This domain covers statistics on conceptual issues or data work based on thematic approaches that require bringing together data across different domains to meet the data needs for policy agendas for development. This domain also covers statistical activities that span two or more of the previous subject-matter domains, or those not elsewhere classified.

Table 5.1.1: County Access to ICT services 2019 – 2023

	2019	2020	2021	2022	Number 2023
Secondary Schools with Broadband Projects (Number)
2G Population Coverage (Percentage)
3G Population Coverage (Percentage)
4G Population Coverage (Percentage)
Broadcasting Population Coverage (Percentage)
Digital Terrestrial Television Coverage
Number of localities with WiFi (Hotspots)
Number of Satellite Subscriptions
Number of Wimax subscriptions
Fiber Optic (Kms)	25KM	25KM	35KM	35KM	35KM
Number of Fixed Lines
