Statement from the Governor

The 2024 Samburu County Statistical Abstract is the second Abstract following the initial one produced in 2015 by the KNBS. It emphasizes the importance of data and an evidence-based approach to decision-making in policy development, budgeting, and other discussions. This publication will provide a valuable data source, saving time and costs, and enhancing decision-making processes. It is essential as we create new policies, particularly within the CIDP 2023-2027 framework.

The 2024 Samburu County Statistical Abstract has been reorganized to conform to the standard format based on the UN Classification of International Statistical Activities. The publication is presented according to different domains, including Demographic and Social Statistics, Economic Statistics, Environment, Governance, and Cross-Cutting Statistics. This harmonization is essential for ensuring that data can be compared and shared.

My Government will avail this publication at the doorsteps of all other stakeholders in the county for their policy and decision-making processes. The entire County Government, Parliament, Civil Society Organizations (CSOs), Faith Based Organizations (FBOs), Non-Governmental Organizations (NGOs), private sector organizations, education stakeholders/Institutions, National Government Ministries, Departments and Agencies (MDAs) and the members of the public will be expected to make prudent policy choices based on the data availed herein. It's the utilization of this publication that will trigger additional data needs hence creating the impetus for its improvement.

I want to appreciate the positive working relationship between the county government and the national government departments/agencies. The MDAs and county government departments have significantly contributed to this publication by producing and sharing data. The Kenya National Bureau of Statistics (KNBS) has played a crucial role in reviewing the publication. This partnership has ensured that quality standards are met and has led to further improvements. We will continue seeking partnership opportunities with KNBS to enhance our statistical system and make it more responsive to current and future needs.

The 2024 Samburu Statistical Abstract will be shared with all stakeholders in the county, country, and beyond. This initiative will provide us with an opportunity to communicate the progress we are making in achieving our development objectives. This publication will be accessible at <https://www.samburu.go.ke/>, along with other county government publications.

H.E LATI LELELIT - Governor, Samburu County

FORWARD

The first principle in the United Nations Fundamental Principle of Official Statistics states that official statistics provide an indispensable element in the information system of a democratic society, serving the government, the economy, and the public with data about the economic, demographic, social and environmental situation. To this end, official statistics that meet the test of practical utility are to be compiled and made available on an impartial basis by official statistical agencies to honour citizens' entitlement to public information. It is within this internationally accepted norm embedded in the Statistics Act, 2006, that the 2023 Samburu County Statistical Abstract (CSA) was produced.

In line with its mandate of collaborating with and assisting the county governments or any other institutions in the production of official statistics in the country, the Kenya National Bureau of Statistics (KNBS) collaborated with the County Government of Samburu to produce the 2023 Samburu CSA. The 2024 Samburu CSA is a single source of information that presents the official statistics produced by Ministries, Departments and Agencies (MDAs) both at the National Government and the County Government of Samburu. This publication provides data series on various sectors of the economy at the county level for the period 2019 to 2023. The data is mostly from administrative records and sample surveys conducted within the period.

The production of the 2024 Samburu CSA has gone through all the recommended stages of producing official statistics. The statistics generated were validated by the MDAs within Samburu County both from National and the County Government. The data were reviewed by the technical team from KNBS and County Government of Samburu.

The 2024 Samburu CSA is categorized into an introductory chapter and other chapters based on the classification of statistical activities undertaken by national and international statistical organizations. This classification follows the statistical subject-matter domains with five domains of: Demographic and Social Statistics; Economic and Statistics; Environment; Governance Statistics; and Cross-cutting Statistics.

We welcome the readers to this publication and encourage them to offer positive critique aimed at improving the content and quality of future publications. KNBS appreciates the collaboration that has resulted in the production of this publication which contains a comprehensive set of indicators that are useful for planning and policy formulation for Samburu County.

Macdonald G. Obudho, MBS
Director General
Kenya National Bureau of Statistics

ACKNOWLEDGEMENT

The 2024 Samburu County Statistical Abstract (CSA) has been successfully produced thanks to the joint efforts of suppliers and producers of statistics from both the County Government and National Government. This collaboration is expected to improve the timely compilation of reliable data that will meet the needs of both the users and suppliers in subsequent County Statistical Abstracts.

I would like to express my sincere gratitude to H.E Lati Lelelit, the Governor of Samburu County, for his support during the production of this publication. I highly appreciate the participation of the members of the County Executive Committee, County Chief Officers, Directors, and all other staff. I want to acknowledge Mr. Jonathan Lengoloni, Chief Officer for Economic Planning, and his team for their tireless efforts that ensured the successful production of the County Statistical Abstract.

I wish to express my gratitude to the Kenya National Bureau of Statistics (KNBS) led by The Director General, Mr. Macdonald Obudho, for the collaboration which has culminated in the preparation of this CSA. The Bureau provided technical support and coordinated the consolidation and validation of the data. Special thanks go to the County Commissioner for playing a pivotal role in coordinating the data collection process from National Government departments. I appreciate the contribution of departmental heads who provided timely data and participated in the validation of the information contained in this publication.

Hon. Silvana Kaparo

**County Executive Committee Member-Finance, Economic Planning and ICT,
Samburu County**

INTRODUCTION

A.1 OVERVIEW OF SAMBURU COUNTY

Samburu County (0030' – 2045'N and 36015' – 38010'E) is within the northern parts of the Great Rift Valley in Kenya (Figure 1). The County lies within the ASAL region covering an area of 21,090 square kilometers, and is bordered by the following Counties Turkana (Northwest), Baringo (Southwest), Marsabit (Northeast), Isiolo (East) and Samburu (South). The County is a North Rift Economic Block (NOREB) member and the Frontier Counties Development Council (FCDC). Eighty percent is pastoralists' economic livelihoods.

The County has three sub-counties namely Samburu North, Samburu East and Samburu Central. Samburu Central has an area of 3,699 KM² with 46 sub-locations, 14 Locations and 3 Divisions. Samburu East has 29 Sub-locations, 12 Locations and 2 Divisions covering an area of 10,016 KM². Samburu North covers 33 Sub-locations, 13 Locations and 2-Divisions covering an area of 7,375 KM.

The county consists of several highlands, plateaus and lowlands including the famous Suguta Valley. Fault escarpments bound its sides while red clays, boulders and gravel fans cover the floor. The valley is characterized by beach terraces which give evidence that it was once part of Lake Turkana. The county has immense potential for livestock value addition and the development of high niche tourism facilities.

Figure 1: Location of Samburu County in Kenya

Administrative Units and Political Units

This section presents information on the administrative and political units in the county disaggregated by constituent sub-units. It gives the distribution of administrative units by sub-county, divisions, locations, sub-locations and villages and by political units in terms of constituencies and wards.

Notes and Definitions

County: It is an area that is demarcated as a devolved unit as stated under Article 6(1) of the Kenya's Constitution and specified in the First Schedule of the Constitution.

Sub-County: Refers to both Administrative Units of National Government (former districts) and County Governments (Constituency).

County Assembly: means an assembly constituted in the county in accordance with Article 177 of the Constitution.

Constituency: This is an area demarcated as stated under Article 89 of the Kenya's Constitution for electing a member of the National Assembly. There are 290 constituencies in Kenya and 3 constituencies in Samburu County.

Ward: Is an electoral area within a county delimited in accordance with Article 89 of the Kenya's Constitution for the purpose of the electing the Member of the County Assembly. There are 1,450 wards in Kenya and 15 in Samburu County.

A.2 Overview of County Government of Samburu

Structure of County Governments

Structure of County Governments the Constitution of Kenya, 2010 was promulgated on 27th August 2010 providing for a two-tier government structure with one National Government and forty-seven (47) devolved County Governments. County Governments consist of two arms, namely the County Assembly and the County Executive. The functions of County Government of Samburu as stipulated in the Fourth Schedule (Constitution 2010) are structured within the 8 county departments.

The County Assembly

The legislative authority of county laws, general oversight of the County Government and representation of the people is vested on County Assembly. The County Assembly of Samburu consists of 26 Members of County Assembly (MCAs) comprising 15 elected MCAs from different County Assembly Wards, 9 nominated MCAs (representing special interests such as persons with disability and the youth as prescribed by the County Government Act 2012) and the Speaker who is ex-officio. The head of the County Assembly is the Speaker, who is also the Chairman of the County Assembly Service Board. The composition of the County Assembly for Samburu County is as follows: -

Speaker (ex-officio) 1

Elected MCAs 15

Nominated MCAs 11

Total 26

The County Executive

The executive arm of the County Government comprises the governor, the deputy governor, the County Executive Committee Members (CECMs) and the County Public Service. The County Executive Committee Members are appointed by the Governor with the approval of the County Assembly. The governor and deputy governor are elected by registered voters in the county in a general election for a term of five years. The County Governor and Deputy County Governor are the Chief Executive and Deputy Chief Executive of the county, respectively. The county is run by a County Executive Committee (CEC) consisting of:

- Governor
- Deputy Governor
- Nine County Executive Committee members
- County Secretary

The operations of the Executive are structured around departments headed by nine (9) County Executive Committee Members (CECMs). Under the CECMs are twenty-two (22) Chief Officers who are the authorized and/or the accounting officers of the departments.

The departments are: -

- Finance, Economic Planning and ICT
- Agriculture, Livestock Development, Veterinary Services Irrigation and Fisheries
- Water, Environment, Natural Resources and Energy
- Education and Vocational Training
- Medical Services, Public Health and Sanitation
- Lands, Housing, Physical Planning and Urban Development
- Roads, Transport and Public Works
- Tourism, Trade, Enterprise Development and Co-operatives
- Culture, Social Services, Gender, Sports and Youth Affairs

A.3 Overview of Kenya National Bureau of Statistics

The Kenya National Bureau of Statistics (KNBS) is a State Corporation established under the Statistics Act No.4 of 2006. It is the principal agency of the Government for collecting, analyzing and disseminating statistical data, and the custodian of official statistical information. The Bureau is also responsible for the co-ordination of the National Statistical System (NSS) in the country.

The functions of KNBS are:

- a) Planning, authorizing, coordinating and supervising all official statistical programmes undertaken within the national statistical system;
- b) Establishing standards and ensuring the use of best practices and methods in the production and dissemination of statistical information across the national statistical system;
- c) Collecting, compiling, analyzing, abstracting and disseminating statistical information;
- d) Conducting the Population and Housing Census every ten years, and such other censuses and surveys as the Board may determine;
- e) Maintaining a comprehensive and reliable national socio-economic database.
- f) Developing and maintaining sampling frames of the Bureau;
- g) Collaborating with and assisting the county governments or any other institutions in the production of official statistics;
- h) Providing technical advice on statistics to other state entities;
- i) Promoting co-ordination among producers, users and suppliers of official statistics by forming appropriate sector committees; and
- j) Designating statistics produced by national statistical system as official statistics on being satisfied that the necessary criteria have been followed.

The KNBS is organized into five directorates namely; Production Statistics; Statistical Coordination and Methods; Corporate Services; Macroeconomic Statistics; and Population and Social Statistics. KNBS has offices in all 47 counties.

STATISTICAL DOMAIN 1

DEMOGRAPHIC AND SOCIAL STATISTICS

1.1: Population

This section contains population and demographic statistics. The topics include demography, vital statistics, population structures and growth, demographic projections, families and households (marriages, divorces, household size).

Notes and Definitions

Density refers to the number of persons per square kilometer, obtained by dividing the enumerated persons in a given area by the size of the area.

Area: This is the extent of a surface enclosed within a specified boundary, expressed in square kilometers. This excludes areas covered by water.

Place of Occurrence: It is where birth or death occurs.

Births or Deaths Registered at Health Facilities: Refer to births or deaths that occur at a health facility and a notification is issued by a health worker at the facility.

Births or Deaths Registered outside Health Facilities: Refer to births or deaths that occur at home and a notification is issued by an Assistant Chief.

Selected Age Groups: Refer to special age groups e.g., Children under one year, children of school-going age ECDE (3-5 years), Primary (6-13 years) and secondary (14-17 years), youth (18-35 years), Children (under 18 years), Voters or Adults (18+ years), Women of reproductive age (15-49 years), Active Labour force (15-64 years) and the elderly (65+ years).

STATISTICAL DOMAIN 2

ECONOMIC STATISTICS

2.1 Macroeconomic Accounts and Statistics

Covers the compilation of macroeconomic accounts and macroeconomic statistics. It includes institutional sectors and industries. This category includes the aggregation, consolidation and reconciliation of the different components of economic statistics.

Notes and Definitions

County Government Revenue includes equitable share allocations, conditional grants and county Own Source Revenues (OSR)

Expenditures are development and recurrent expenses incurred by the county government.

NGAAF are funds allocated to the county through the office of the County Woman Representative while NGCDF are fund allocated to the constituency through the office of the Member of Parliament.

Gross County Product

Gross County Product (GCP) is a measure of how much each county contributes to Kenya's Gross Domestic Product (GDP) and may therefore be interpreted as the "County GDP". The GCP measures newly created economic value through production of goods and services in a specific county. The compilation of GCP is in accordance with international guidelines on estimation of regional gross domestic product.

Table 2.1.1: Samburu Gross County Product by Economic Activity at Current Prices, 2019 – 2023

At Current Prices, KSh Million

2.2 Business statistics

Business statistics covers economy wide statistics on the activities of enterprises, covers work on economic statistics across different sectors. Covers topics like statistics on economic activities of enterprises, business demography, business investment, business services, demand for services, industrial performance, enterprises by size class, industrial production, commodities, structure of sales and services, outputs of the service industries, non-profit institutions.

Notes and Definitions

Single Business Permit: The permit allows for the conduct of business or trade within the county. The permits are issued by the county governments. All single business permits expire at the end of every year and there is a period within which renewal must be done.

SACCOs: These cooperatives provide their members with convenient and secure means for saving money and obtaining credit at affordable interest rates.

Share Capital: Refers to the total of cooperatives' shares that are held by members. It is non-withdrawable but only transferable to another member when one ceases to be a member of the cooperative.

Table 2.2.1: Licensed Businesses, 2019 - 2023

Category	Number				
	2019	2020	2021	2022	2023*
Licensed Businesses	2,277	2,251	2,374	2,626	2,714

Source: Department of Medical Services, Public Health and Sanitation - County Government of Samburu

2.3 Agriculture, Forestry and Fisheries

Covers statistics related to agriculture, forestry and fishery. Includes agricultural monetary statistics (agricultural economic accounts), agricultural structures (farm structure), trade in agricultural products, crop and animal production, agricultural commodities, agro-industry statistics (including food production and safety), organic farming and organic food, products source and use tables, forest and forest product statistics, trade in forest products, fisheries.

Notes and Definitions

High potential: Clay-loam soil with sufficient manure and good drainage

Medium potential: Sandy-loam soil with high drainage

Low potential: Sandy soil with very high drainage and low manure content

Agro-Ecological Zones (AEZ): Refers to the division of an area of land into smaller units, which have similar characteristics related to land suitability, potential production and environmental impact. The zone groups are temperature belts defined according to the maximum temperature limits within which the main crops in Kenya can flourish.

Reporting period: The data is reported on calendar year as opposed to seasonal basis. Therefore, for crops where planting and harvesting may take place more than once in the year, the production data is aggregated to get the annual data.

Agricultural Area: Refers to area under the crop or the area harvested. For a particular crop, the area reported is on what has been harvested

Arable Land: Is the land under temporary agricultural crops (multiple-cropped areas are counted only once), temporary meadows and pastures (for less than five years), land under market and kitchen gardens, barnyards, and land temporarily fallow (for less than five years). The abandoned land resulting from shifting cultivation is not included in this category. Data for “Arable land” are not meant to indicate the amount of land that is potentially cultivable.

Crop Production: Refers to the actual harvested production from the field and excludes threshing losses and that part of crop not harvested for any reason.

Gazet Forest: Any forest area, or woodland or any part thereof, declared by notice in the Kenya Gazette Supplements, and which has a particular environmental, cultural, scientific, or other special significance, to be a nature reserve for the purpose of preserving its biodiversity and natural thereof.

STATISTICAL DOMAIN 3 ENVIRONMENT STATISTICS

3.1 Environment Statistics

Environment statistics includes topics like climate, climate change, biodiversity, environment and health, natural resources, soil, water, air, landscape, waste, environmental expenditure, expenditure for the protection of the environment, environmental accounts, agro environmental indicators, environmental pressure, environmental impact of industry, transport, energy etc., environmental monitoring, material flow analysis, environmental decoupling indicators, pollution, ecosystems, land use and cover, environmental protection, nationally protected areas.

Notes and Definitions

Topography: refers to the geographic features of a location. The features include the mountains, peaks, valleys etc.

Climate: The average weather conditions prevailing in an area over a long period of time. It includes temperature, air pressure, humidity, precipitation, sunshine, cloudiness, and winds.

Rainfall: The amount of rain that falls on an area over a period of time. The rainfall data is collected from weather stations within the county.

Land Area: Refers to an area in square kilometers of the land-based portions of standard geographic areas.

Temperature: Refers to a measure of the warmth or coldness of a place with reference to some standard value.

4.3 Access to and Quality of Justice

Covers statistics on the ability of people to defend and enforce their rights and obtain just resolution of justiciable problems, through impartial formal or informal institutions of justice and with appropriate legal support. Covers both criminal and civil justice, including the accessibility, effectiveness and quality of legal assistance, processes, decisions and outcomes.

Table 4.3.1: Cases Handled at Maralal Courts, 2019–2023

Year	Status of Case	Courts		Number
		Magistrates	High Court	Total
2019	Pending at the beginning of Year	140	-	140

STATISTICAL DOMAIN 5 CROSS-CUTTING STATISTICS

5.1. Information Society and Digitization

Covers work on statistics, indicators and frameworks to monitor digital transformation and the use and impact of information and communication technologies (ICT) on society. Looks at these topics in a wider sense than economic aspects, including well-being in a digital society. Includes work on internet use, internet application, information and communications technology trade, computer use, broadband connectivity, e-commerce, etc.

Table 5.1.1: County Access to ICT services 2019 – 2023
